

## **Sode Rathamma**

I, Sode Rathamma, hailing from Katukapalli village and working as a nurse in the government Hospital now, want to share with you the success of my life journey. I studied in my village primary school up to 5<sup>th</sup> class and dropped out of my studies. I was going for daily coolie work in the agricultural fields. Fr. Peter Daniel identified me and five more girls working in the field and brought me to LITDS along with four more girls of my village. We were all taken to a nearby High school run by the religious sisters and I completed X class. Then I went on to do my Intermediate and did my professional nursing course for four years with the help of LITDS. Now I got a job in a government Hospital serving my own tribes. I am extremely happy to serve my people and grateful to God for having given such a wonderful life to live for my people.
